

2025 Advocacy Tool Kit

We're thrilled that even more provisions of the 2022 Prescription Drug Law have taken effect, providing historic relief for patients on Medicare. **In 2025, patients with Medicare Part D will see an annual cap of \$2,000 on out-of-pocket costs for their prescription drugs.** This will bring significant financial relief to millions of patients who previously paid thousands of dollars each year for life-saving medications. Let's celebrate these provisions and share how they're improving patients' lives and lowering drug costs!

Here are quick actions to help spread the word:
